In the city of Ottawa, Kas., if a body meet a body and wants a little rye, the two proceed to a certain innocent lookdag room where they open a drawer in the wall and on a slate found therein indicate the character of the contraband goods which they would like to sample, at the same time depositing thereon to may the bill. The drawer is then closed and shortly three raps indicate that the spirits are present. The drawer is at once inspected and its contents silently and solemnly imbibed -and a' the lads they smile at this, when drinking rock and rye.

As HAS been frequently stated, the immigration into America is, this year, larger than ever before, and the arrivals during May were larger than those of many whole years in the past. The Superintendant of Castle Garden says : "The most remarkable exodus at pres ent seems to be from Sweden. We expect at least 80,000 Swedes over here this year. I am told that entire villages and districts have become depopulated, and this may be true, as the population is mumber we expect this year with the 139 arrivals from Sweden in 1847! Be- er fore last year our annual reports rarely showed more than 5,000 emigrants from in 1879, 12,000. In 1880 the number rose suddenly to 35,000, and this year we expect more than twice as many. In 1851, 163,000 Irishmen arrived here. Since then the number has been smaller. In 1877 it was only 8,221. From that time there has been a steady increase, until last year there were over 66,000 Irish arrivals. There have also been some remarkable fluctuations in German immigration. When France paid the enormous indemnity after the Fran--co-Prussian war, we supposed Germany would be so prosperous that the Germans would remain at home. But in 1872 we received over 132,000 German immigrants, or more than have ever arrived here in a single year. After that the number fell off to between 20,000 and 33.000, until last year, when it suddenly went up to 104,264."

Young ladies should remember that no worthy young man will encourage a flirtation, and even the unworthy have no respect for the foolish young woman who recklessly throws herself away.

Debt, poverty and suffering haunted me for years, caused by a sick family and large bills for doctoring, which did no good. I was completely discouraged, until one year ago, by the advice of my pastor, I procured Hop Bitters and commenced their use, and in one month we were all well, and none of us have been sick a day since; and I want to say to all poor men, you can keep your families well a year with Hop Bitters for less than one doctor's visit well cost.—A Workingman.
